Product No: MT3650N3-UV

## Peak Emission Wavelength: 365nm

The 365nm UV emitter is specifically designed for applications requiring high power output and accuracy in a dome lensed metal package. Custom package solutions and sorting are available.

#### **FEATURES**

- > High Output Power
- > Metal Can Domed
- > High Reliability / Precise Die Center
- > Narrow Beam Angle

### **APPLICATIONS**

- > Currency Validation
- > UV Curing / Bar-code Reader
- > Counterfeit Detection
- > Medical Phototherapy

# V CATORION

- 1. LEDs emit very strong UV radiation during operation.
- 2. Don't look directly into the LED light when in operation as UV radiation can harm your eyes.
- 3. To prevent even inadequate exposure, wear protective eyewear.
- 4. If LEDs are embedded in devices, please indicate warning labels against the UV LED used.
- 5. Avoid prolonged exposure to skin or other tissue during operation.
- 6. Keep out of reach of children.
- 7. Take appropriate precautions around pets and other living organisms to avoid UV exposure.
- 8. Specification and dimension are subject to change without notice.

The information contained herein is subject to change without notice.
